(54) GROMMET

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a grommet increasing workability of an installation operation of a corrugated tube by allowing the corrugated tube to be inserted into a through hole easily.

SOLUTION: For this grommet, forming a slit 26 from a top end to a thorough hole 25b on a grommet body 25 allows open ends 25c, 25d of the grommet body 25 with the slit 26 formed to come into contact or to depart. An engaging recess 29a is formed on the open end part 25c, and an engaging protrusion 29b engaging the engaging recess 29a is formed on the open end 25b.
